PERSONAL PROJECTS

T.V.O.D. | https://tvod.herokuapp.com
This full-stack app is a web platform for users to track what television programs they are watching during this era of "Peak TV." Created React, Redux, Express, JavaScript, Node.js, Axios, HTML, CSS, Bootstrap, Moment, postgreSQL, and was deployed onto Heroku. It makes primary use of the TVMaze API.

Watch a presentation of the app at the Seattle React Conference:
https://www.youtube.com/watch?v=JV3cFP_CQEo

PUMP UP THE VOLUNTEERS | https://pumpupthevolunteers.surge.sh
This full-stack app allows for organizations to register and post events that require volunteers, and allows volunteers to register for events that match their interests. Created with JavaScript, HTML, CSS, Bootstrap, Materialize, Browserify, Axios, Express, Morgan, Heroku and Surge.

TASK MANAGER | https://taskmanagerwb.surge.sh
A full-stack project designed to demonstrate how to implement authentication and authorization and allows users to create unique accounts, create multiple task lists, and add individual tasks to the aforementioned lists. Created with JavaScript, CSS, HTML, Axios, Bootstrap, Moment.js

TRACKMEET | https://trackmeet.surge.sh
This front-end app that allows you to keep track of information regarding the people you meet. Created with JavaScript, HTML, CSS, and Browserify.

WORK EXPERIENCE

SOUND (formerly SOUND MENTAL HEALTH)
Tukwila, WA | March 2017 - April 2018
Fund Development and Communications Assistant
• Redesigned external and internal digital newsletters and contributed to HTML design and overall layout.
• Assisted Development Director with grantwriting by tracking grant applications, locating appropriate documents, and meeting deadlines.
• Led efforts to reorganize shared drive for better accessibility for the Marketing and Development departments.
• Created and designed website pages for *Imagine* fundraiser. Served as registrar to track and tailor experience to 300 attendees.

WASHINGTON STATE OPPORTUNITY SCHOLARSHIP
Seattle, WA | August 2015 – January 2017
Fund Development and Communications Assistant
• Designed web pages and digital invites using HTML and CSS.
• Gathered and coordinated over 100 donated items from local businesses for the Microsoft Giving Campaign silent auction.
• Acted as registrar for several events, keeping track of hundreds of attendees. Designed and scheduled physical and email invitations.
